

Why not
A war on
warming?

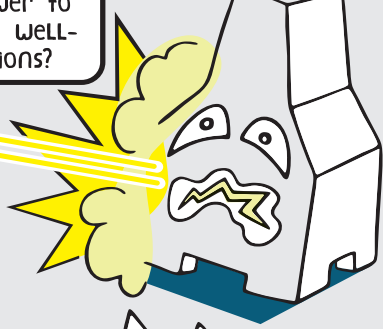

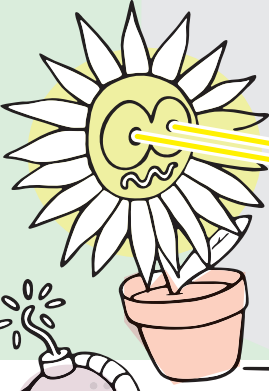

this LUCHA neo-Libre
is problematic. ALL
the matches is fixed.
OUR CORPORATIZED
opponents wield
super power while
we are just men
of flesh and blood.
but still we want
to believe that the
fight is real. Where
are the real Laser
daisies? What LAB
accident will give
us the power to
defeat our well-
fed ILLUSIONS?

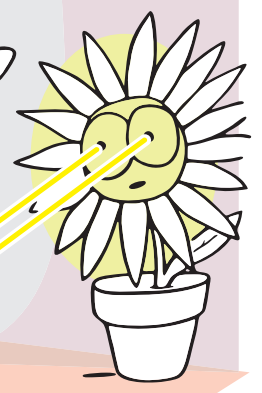

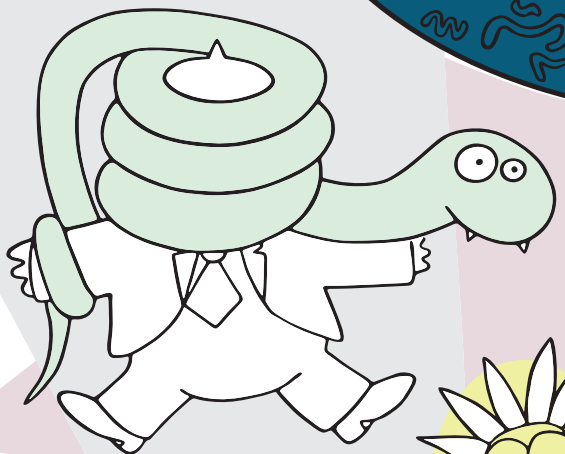

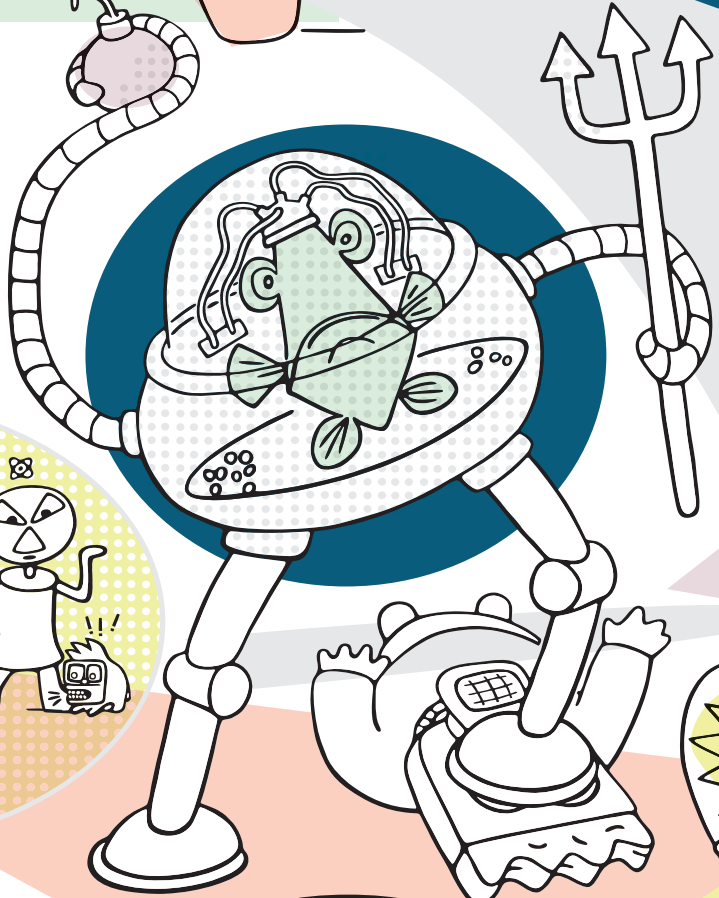

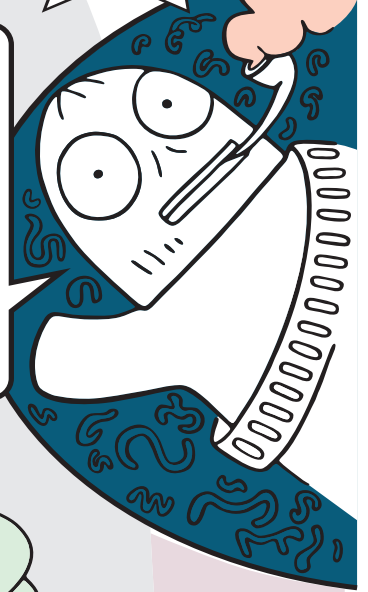

it's time to BUILD A
WALL AROUND OUR
freedoms which we
love. This will TRAP
ALL the freedom on
the inside. ALL the
MALCONTENTS who
want to DISRUPT
progress will be
outside, where
we send our
radioactive waste,
sewage, smoke,
acid rain, and garbage!

don't forget the
missile shield
dome!

What new
virus will
come from
outer space
to infect
homo sapien
with more
sapience
and less
ignorance,
greed, and
stupidity?

now I
see why this game
is called 'ASSAULT OF
the LIBERAL MENACE' -
with OPPOSABLE THUMBS
I'd be able to waste
those DAISIES!
